### 1. Overview of Results of Operations

### (1) Results of Operations

In the fiscal year ended March 2022 (April 1, 2021–March 31, 2022), the Japanese economy continued to suffer from factors including restrictions on socioeconomic activity imposed by the reinstatement of the state of emergency and implementation of priority measures to prevent the spread of COVID-19 amid a resurgence of the pandemic. Economic conditions were exacerbated by intensifying international tensions, and the outlook going forward remains uncertain.

Under these conditions, the Nihon Chouzai Group, keenly aware of its role as a healthcare company tasked with supporting community healthcare, continued endeavoring to provide quality healthcare services while thoroughly implementing infection prevention measures at all its pharmacies. The Group also kept up efforts to reduce costs across the organization.

While maintaining the spirit of its founding philosophy, "Achieving the True Separation of Drug Prescribing and Dispensing Services," the Group has redefined its responsibilities to better align with the changing times and formulated a new corporate philosophy to pursue the realization of a sustainable society. The Group has set its mission as "To give people the closest possible support," with the vision for 2030 of becoming "The most trusted partner in healthcare." Based on this corporate philosophy— mission and vision for 2030, the Group will pursue sustainability through resolving social issues in its business endeavors centered on healthcare and contribute to the wellbeing of all people.

With an eye toward the transition to the Prime Market of the Tokyo Stock Exchange in April 2022, the Group introduced an executive officer system to fulfill the following: to separate management's decision-making and supervisory functions from the business execution function; to further clarify the authority and responsibilities involved in business execution; to expedite decision-making; to enhance management agility; to strengthen corporate governance; to flexibly respond to changes in the operating environment; and to enhance enterprise value. Further, the Group views its employees as valuable management resources and hence considers creating a workplace where employees can work safely and in healthy conditions an important management theme. In light of this, the Group declared its commitment to health management and has pushed forward with efforts to strengthen health management through its health management promotion system led by the President & CEO of the Group as Chief Health Manager. As a result of these initiatives, on March 9, 2022, the Group was certified as an Outstanding Health & Productivity Management Organization 2022 (in large enterprise category) under the Certified Health & Productivity Management Organization Recognition Program of the Ministry of Economy, Trade and Industry.

In the Dispensing Pharmacy Business, on March 1, 2022, the Group launched an official website for Nihon Chouzai Online Pharmacy Service NiCOMS. A new logo was designed for NiCOMS using the color orange to highlight the website's goal of facilitating sincere, heartfelt communication with patients online, and the design and color scheme for the website's reservation and call pages were also updated. The Group plans to further enhance the usability of the online pharmacy service, offering patients an easy-to-access communication tool to closely support them in drug therapy. We also plan to make NiCOMS compatible with the prescription refill system introduced in April 2022 and the electronic prescribing system expected to be utilized in full-scale going forward.

Further, the number of registered users of Okusuri Techo Plus, an electronic medication notebook developed inhouse in 2014 that can be used at Nihon Chouzai Group pharmacies nationwide, exceeded one million as of February 2022. In addition to features common to conventional medication notebooks, Okusuri Techo Plus has a range of functions that support patients' health management, including the electronic prescription transfer function which helps shorten waiting time at pharmacies and the Tsunagaru function through which patients can consult pharmacists regarding their medications. Thanks to these functions, Okusuri Techo Plus is being utilized by many patients even amid the pandemic.

In the Pharmaceutical Manufacturing and Sales Business, Nihon Generic Co., Ltd.—a member of the Nihon Chouzai Group which promotes ESG management to preserve the environment through reduction or efficient use of electricity, gas, water, and other types of resources—has begun using carbon neutral city gas and joined the Carbon Neutral LNG Buyers Alliance. Nihon Generic became the first company in the generic drug industry to use carbon neutral city gas supplied by Tokyo Gas Co., Ltd., and the subsidiary expects this to result in an annual reduction in CO2 emissions of about 4,000 tons across its three business offices.

In the Medical Professional Staffing and Placement Business, demand for pharmacist staffing and placement continued to fall due to the ongoing impact of the pandemic, but the Group's track record of physician placement, including for COVID-19 vaccination programs, expanded. On March 31, 2022, the Group renewed its Outstanding Staffing Business Operator certification awarded by the Ministry of Health, Labour and Welfare (MHLW).

For the fiscal year ended March 31, 2022, we posted net sales of 299,392 million yen (+7.3% YoY), operating profit of 6,589 million yen (-18.7% YoY), ordinary profit of 6,767 million yen (-19.5% YoY), and profit attributable to owners of parent of 3,705 million yen (+4.7% YoY).

The Group will continue to make every effort to prevent the spread of COVID-19 and provide high-quality medical care to ensure that patients and customers can use our services with peace of mind.

Segment-specific earnings are as indicated below.

### 1) Dispensing Pharmacy Business

In the fiscal year under review, the Dispensing Pharmacy Business reported net sales of 265,624 million yea (+8.8% YoY) and operating profit of 13,009 million yea (+22.9% YoY).

As of March 31, 2022, the Group had a total of 697 stores (including one merchandise store), reflecting 40 new store openings and 13 closures during the fiscal year under review.

Net sales and operating profit increased despite ongoing impact of the COVID-19 pandemic, owing to contributions from stores opened in the previous fiscal year and an increase in the number of prescriptions filled. The Japanese government targets to increase the generic drug usage ratio (on a volume basis) to 80% or above in all prefectures by the end of FY2023. The Group reached the government's generic drug usage target of 80% at its pharmacies in all prefectures by the end of March 2022, with an all-pharmacy average of 89.3%. Further, the percentage of the Group's pharmacies that provide at-home medical care (those that make 12 or more home visits annually) steadily increased, reaching 93.1% at the end of March 2022.

#### 2) Pharmaceutical Manufacturing and Sales Business

In the fiscal year under review, the Pharmaceutical Manufacturing and Sales Business reported net sales of 44,836 million yen (-1.9% YoY) and operating loss of 53 million yen (operating profit 2,350 million yen same period a year ago).

Net sales decreased mainly due to a decline in sales prices of existing products following the NHI price revision of April 2021, while sales of new NHI-listed products in 2019 and beyond were strong. Operating profit fell, despite efforts to reduce costs, a sales policy focused on profitability, and ongoing sales expansion of in-house manufactured products, including those newly listed on the NHI drug price list, due mainly to a temporary loss from the disposal of non-performing assets caused by a quality problem at Choseido Pharmaceutical Co., Ltd. Operations at Choseido Pharmaceutical Co., Ltd. steadily improved in line with the disclosed business improvement plan. The Company had launched 15 newly listed items during the fiscal year under review, bringing the total number of listed products to 642 at fiscal year-end (including 2 OTC drugs).

#### 3) Medical Professional Staffing and Placement Business

In the fiscal year under review, the Medical Professional Staffing and Placement Business generated net sales of 6,991 million yen (-16.7% YoY) and operating profit of 576 million yen (-19.1% YoY).

Net sales declined as temporary pharmacist staffing demand fell due to the COVID-19 pandemic. Operating profit was also down as a result of diminished earnings from temporary pharmacist staffing and placement, but earnings from the physician placement business, including for COVID-19 vaccination programs, expanded.

## (2) Financial Position

Total assets as of the end of March 2022 were 178,753 million yen, down 7,509 million yen (-4.0%), compared to 186,262 million yen at the end of the previous consolidated fiscal year. This is mainly due to decrease in Cash and deposits.

Total liabilities were 125,876 million yen, down 10,517 million yen (-7.7%) compared to 136,394 million yen at the end of the previous consolidated fiscal year. This is mainly due to decreased Long-term loans payable.

Total net assets were 52,876 million yen, up 3,008 million yen (+6.0%) compared to 49,868 million yen at the end of the previous consolidated fiscal year. As a result, our equity ratio is 29.6%

## (3) Cash Flows

There was a net a decrease of 7,350 million yen in cash and cash equivalents from the end of March 2021 to 25,543 million yen at the end of March 2022.

Net cash provided by operating activities was 19,411 million yen, an increase of 8,197 million yen from one year earlier. Major income factors include 6,217 million yen from profit before income taxes and 6,569 million yen of depreciation. Conversely, major expenditure factors include 2,189 million yen in income tax paid.

Net cash used in investing activities 9,313 million yen, an increase of 1,545 million yen. Major expenditure factors include expenditures of 5,955 million yen for the purchase of property, plant and equipment. This is mainly comprised of investments for new store opening in the dispensing pharmacy business and capital investments in the pharmaceutical manufacturing and sales business.

Net cash used in financing activities 17,448 million yen, an increase of14,641 million yen. Major income factors include 10,900 million yen from long-term loans payable. Conversely, major expenditure factors include 27,966 million yen in repayments of long-term loans payable.

|  | FY3/18 | FY3/19 | FY3/20 | FY3/21 | FY3/22 |
|--|--------|--------|--------|--------|--------|
| Shareholders' equity ratio (%)                           | 22.2   | 23.0   | 25.4   | 26.8   | 29.6   |
| Shareholders' equity ratio based on<br>market prices (%) | 28.7   | 31.5   | 26.7   | 28.7   | 22.3   |
| Cash flows to debt ratio (years)                         | 3.8    | 6.0    | 5.6    | 6.5    | 2.9    |
| Interest coverage ratio (times)                          | 37.1   | 25.8   | 34.9   | 35.1   | 64.8   |

Note: The above figures are calculated as follows.

Shareholders' equity ratio: Shareholders' equity / Total assets

Shareholders' equity ratio based on market prices: Market capitalization / Total assets

Cash flows to debt ratio: Interest-bearing debts / Operating cash flows

Interest coverage ratio: Operating cash flows / Interest payments

1. All indices are calculated based on consolidated figures.

2. Market capitalization is calculated by multiplying the listed share price at the end of period by the number of shares outstanding (net of treasury shares) at the end of period.

3. Operating cash flows are calculated using the figures for "Net cash provided by (used in) operating activities" in the consolidated statement of cash flows. Interest-bearing debts include all debts on the consolidated balance sheet that incur interest. Interest payments are calculated using the figures for "Interest expenses paid" in the consolidated statement of cash flows.

### (4) Outlook

For the fiscal year ending on March 31, 2022, Nihon Chouzai forecasts consolidated net sales of 321,400 million yen (+7.4% YoY), operating profit of 8,500 million yen (+29.0% YoY), ordinary profit of 8,400 million yen (+24.1% YoY), and profit attributable to owners of parent of 4,400 million yen (+18.7% YoY).

In the operating environment surrounding dispensing pharmacies, in August 2021, a pharmacy certification system was introduced under which pharmacies are certified by prefectural governors as having specific functions to enable patients to choose pharmacies that best suit their needs. Under the system, pharmacies are certified regional cooperation pharmacies and specialized medical institution cooperation pharmacies. Regional cooperation pharmacies share patients' medication information with other medical institutions, including for patients receiving at-home medical care and at the time of hospital admission and discharge, while specialized medical institution cooperation pharmacies serve patients with cancer and other diseases that require advanced pharmaceutical management and a high level of specialization. As such, the system calls for creating pharmacies that can better meet patients' needs. Moreover, the medical fee revision of April 2022 further relaxed regulations relating to online medical consultations and online medication guidance with the aims of enhancing the quality of medical care and increasing convenience for patients.

The business environment in the dispensing pharmacy and pharmaceuticals industry, where the Pharmaceutical Manufacturing and Sales Business operates, became even harsher as the MHLW decided to implement drug price revisions, which had been implemented biennially, annually from April 2021. Amid such an environment, due to a series of quality issues at generic drug manufacturers and supply disruptions, industry-wide initiatives to improve quality and ensure stable supply are urgently needed.

In the Medical Professional Staffing and Placement Business, the Group is under pressure to respond to substantial changes in the operating environment, including the shrinking market for temporary pharmacist staffing business due to the impact of the pandemic. For the physician placement business as well, which has been growing recently, efforts to further expand performance are also required as demand related to the new corona vaccination has slowed down.

Under these operating environments, the Group, in the mainstay Dispensing Pharmacy Business, has pursued the Japanese government's vision of ideal pharmacies, obtaining regional cooperation or specialized medical institution cooperation pharmacy certifications for many of its pharmacies ahead of industry peers to this end. To further enhance the quality of healthcare services it provides, the Group will focus on increasing convenience of its pharmacies, nurturing pharmacists with high levels of specialization. Further, the Group intends to fully devote itself to the digitalization of healthcare services, and through expanded use of online medication guidance and electronic medication notebook Okusuri Techo Plus, it will strive to provide more convenient, higher-quality, and higher-value-added services to patients.

In the Pharmaceutical Manufacturing and Sales Business, the Group will place top management priority on quality management and stable supply and do its utmost to ensure stable supply of quality generic drugs. Utilizing synergies within the Group, one of its strengths, and R&D investments, the Group will focus on expanding sales of in-house manufactured products, including those newly listed in the NHI drug price list, and increasing profitability.

In the Medical Professional Staffing and Placement Business, it aims to further strengthen the placement business for healthcare professionals, especially for pharmacists and physicians, and move forward with growing the physician business through nationwide development of industrial physician placement services.

Based on the DX (Digital Transformation) strategy announced in August 2021, the Group will promote a growth strategy that fully leverages its strengths in DX by transforming its core businesses and operational processes, such as the spread of online medication guidance and online insurance eligibility verification system utilizing its solid DX promotion platform, and improving convenience and pharmacy functions through the electronic medication notebook "Okusuri Techo Plus". We will also promote growth strategies that fully leverage our DX strengths, such as focusing on the creation of new businesses.

In addition, based on our new group philosophy, our mission, "To give people the closest possible support," we will strengthen our sustainability management and contribute to the development of a sustainable society by resolving social issues.

For the earnings forecast for the fiscal year ending March 2023, the Group has assumed that the COVID-19 pandemic will continue having an impact on its earnings for the full year. If revisions to the forecast become necessary due to significant changes in the operating environment, the Group will promptly disclose that matter.

# 2. Basic Approach to the Selection of Accounting Standards

The Nihon Chouzai Group will continue to prepare consolidated financial statements using Japanese accounting standards for the time being to permit comparisons with prior years and with the financial data of other companies.

We will take suitable actions with regard to the application of the International Financial Reporting Standards (IFRS) by taking into account associated factors in Japan and other countries.

# 3. Consolidated Financial Statements and Notes

#### (5) Notes to Consolidated Financial Statements

#### **Going-concern Assumption**

Not applicable.

### **Change in Accounting Policy**

(Application of Accounting Standard for Revenue Recognition, etc.)

The Company has applied the "Accounting Standard for Revenue Recognition" (ASBJ Statement No.29, March 31, 2020; hereinafter referred to as the "Accounting Standard for Revenue Recognition") and other standards with effect from April 1, 2021, and recognizes revenue when the control of the promised goods or services is transferred to the customer at the amount that the Company expects to receive in exchange for such goods or services. As a result, there is no impact on profit and loss for the third quarter of the current fiscal year. There is also no effect on the balance of retained earnings at the beginning of the period.

With the application of the Accounting Standard for Revenue Recognition, etc., "Accounts receivable-trade" presented under "Current assets" in the consolidated balance sheet for the fiscal year ended March 31, 2021 is included in and presented as part of "Accounts receivable-trade and contract assets" with effect from the first quarter ended June 30, 2021. In accordance with the transitional treatment stipulated in paragraph 89-2 of the Accounting Standard for Revenue Recognition, the amounts reported in the fiscal year ended March 31, 2021 are not reclassified using the new presentation method.

## (Application of Accounting Standard for Fair Value Measurement)

The Company has applied "Accounting Standard for Fair Value Measurement" (ASBJ Statement No.30, July 4, 2019; hereinafter, "Fair Value Accounting Standards") and others from April 1, 2021. In accordance with the transitional treatment set forth in Article 19 of Fair Value Accounting Standards and Article 44-2 of "Accounting Standard for Financial Instruments" (ASBJ Statement No.10, July 4, 2019), the Company has applied prospectively a new accounting policy prescribed by Fair Value Accounting Standards and others. This has no effect on the quarterly consolidated financial statement.

#### **Segment and Other Information**

#### Segment information

1. Overview of reportable segments

Segments used for financial reporting are the Group's constituent units for which separate financial information is available and for which the Board of Directors performs periodic studies for the purposes of determining the allocation of resources and evaluating performance.

The Group consists of three business units: the dispensing pharmacy business, the pharmaceutical manufacturing and sales business, and the medical professional staffing and placement business. Each business unit determines its own comprehensive strategies and conducts its own business activities. Consequently, the Group has three reportable business segments: the dispensing pharmacy business, the pharmaceutical manufacturing and sales business, and the medical professional staffing and placement business.

The dispensing pharmacy business segment involves the operation of dispensing pharmacies. The pharmaceutical manufacturing and sales business segment involves manufacturing and sales activities that specialize mainly in generic drugs and other pharmaceuticals. The medical professional staffing and placement business segment involves the provision of a temporary staffing and placement services for pharmacists, physicians, nurses and other medical professionals.

2. Calculation method for net sales, profit or loss, assets, liabilities, and other items for each reportable segment

The accounting treatment methods for reportable segments are generally the same as those listed in "Basis of the Preparation of Consolidated Financial Statements."

Earnings for reportable segments are operating profit.

Inter-segment sales and transfers are based on market prices.

3. Information related to net sales, profit or loss, assets, liabilities, and other items for each reportable segment FY3/21 (Apr. 1, 2020 – Mar. 31, 2021)

Notes: 1. The above adjustments include the following items.

- (1) The negative adjustment of 5,542 million yen to segment profit or loss includes a profit elimination of 34 million yen for inter-segment transactions and corporate expenses of minus5507 million yen. General and administrative expenses that do not belong to any reportable segment are the primary component of corporate expenses.
- (2) The 2,399 million yen adjustment to segment assets includes a 12 million yen elimination for receivables associated with inter-segment transactions, a 206 million yen elimination for unrealized profit in inventories and a 2,617 million yen addition to corporate assets. Leasehold and guarantee deposits and land that do not belong to any reportable segment are the primary components of corporate assets.
- (3) The 327 million yen adjustment of depreciation and the 402 million yen adjustment that is added to the increase in property, plant and equipment and intangible assets are for investments in corporate assets such as buildings.
- 2. Segment profit is adjusted to be consistent with operating profit shown on the consolidated statement of income.

|   |                      | FY3/21                         | FY3/22                         |
|   |                      | (Apr. 1, 2020 – Mar. 31, 2021) | (Apr. 1, 2021 – Mar. 31, 2022) |
|   | Net assets per share | 1,663.01                       | 1,763.34                       |
|   | Net income per share | 118.01                         | 123.56                         |

Notes: 1. Diluted net income per share is not presented since Nihon Chouzai has no outstanding dilutive securities.

2. Basis for calculation of net assets per share is as follows.

|  | FY3/21<br>(As of Mar. 31, 2021) | FY3/22<br>(As of Mar. 31, 2022) |
|--|---------------------------------|---------------------------------|
| Total net assets (Millions of yen)   | 49,868                          | 52,876                          |
| Deduction on total net assets (Millions of yen)  | -                               | -                               |
| Net assets applicable to common stock shares<br>(Millions of yen)  | 49,868                          | 52,876                          |
| Number of common stock shares at end of period<br>used in calculation of net assets per share<br>(Thousand shares) | 29,986                          | 29,986                          |

Note: The number of common stock shares at the end of period that was used to calculate net assets per share is calculated after deducting treasury shares held in the Nihon Chouzai's account.

3. Basis for calculation of net income per share is as follows.

|  | FY3/21<br>(Apr. 1, 2020 – Mar. 31, 2021) | FY3/22<br>(Apr. 1, 2021 – Mar. 31, 2022) |
|--|--|--|
| Profit attributable to owners of parent (Millions of yen)                                  | 3,538                                    | 3,705                                    |
| Amounts not available to common stock shareholders (Millions of yen)                       | -  | _  |
| Profit attributable to owners of parent available to common stock shares (Millions of yen) | 3,538                                    | 3,705                                    |
| Average number of common stock shares<br>outstanding during the period (Thousand shares)   | 29,987                                   | 29,987                                   |

Note: The average number of shares outstanding during the period that was used to calculate net income per share is calculated after deducting treasury shares held in the Nihon Chouzai's account.
